

## BITE INDICATORS

### Electronic Bite Alarm “Digitex D100”

DIGITEX D100 is exceptionally reliable, water proof electronic bite alarm packed with features such as: last bite indication (30 sec. memory), adjustable volume and tone, “red” LED to indicate the bite, “amber” LED stays lit for 20 sec after the last bite. Digitex D100 does a great job detecting even the lightest, hard to detect bites.

Item No.	Type
AK-SYJD100	D100

### Manual Bite Indicators

We offer a selection of simple to use manual bite indicators which can be hung on the line at the same reducing the unwanted slack and keeping the line tight. Once the bite occurs and fish starts pulling the line the indicator will move upwards. It is best to set the hook while the indicator keeps rising.

### Manual Bite Indicators

Item No.	Description
AJ-315	Bite Indicator
AJ-322	Bite Indicator
AJ-326	Bite Indicator
AD-NCD150	Bell - glow

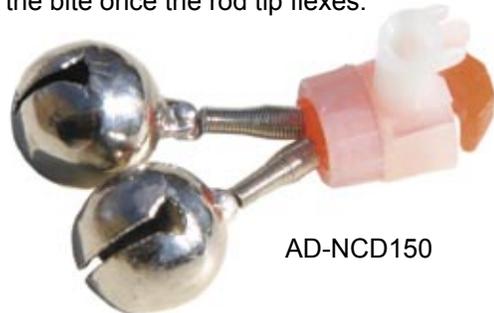

### Phantom Swinger

Phantom swinger is a top of the line bite indicator. Features stainless steel adjustable ball line clip as well as glow stick slots on both sides for night use.

Item No.	Description	Color
02510	Phantom Swinger	Red, Blue, Orange

### Bells - Glow

Our bells work great for day or night fishing. The white plastic ring as well as the glow stick insert glows in the dark. Bells are mounted on the rod tip. It is easy to hear and see the bite once the rod tip flexes.
