

FEEDERS

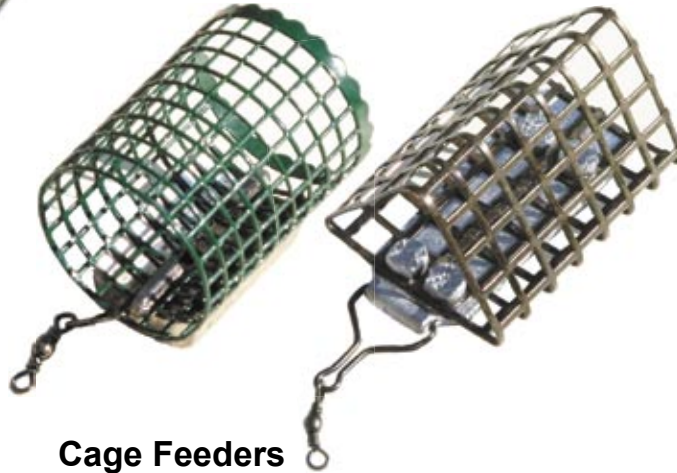

Method Feeders

Tandem Baits In-line method feeder is a top quality feeder available. The special recesses cut into the fins of the feeder help the groundbait to maintain its grip – and essential requirement when method feeder fishing. It is completely compatible with “helicopter rig” and “bolt rig” set-ups. Bolt effect can be achieved using size: 8 rolling swivel.

Feeders

Item No.	Description	Weight g
06110	Method Feeders	40, 60
AK-KO30	Cage Feeders	50
10403	Spring Feeders	0, 20, 40

Cage Feeders

Ultra quick dispersal of bait can be achieved with these feeders. Water rapidly penetrates through the wire mesh.

Spring Feeders

These have been designed and made as a direct response to the growing number of fisheries which insist on versatile, inexpensive in-line feeders.
