

These quality lures are manufactured in Poland using the most advanced technology by HRT - the leading manufacturer of truly realistic holographic lures. The entire line of lures features a stainless steel through-wire construction and razor sharp VMC treble hooks for added strength and durability for fighting a really big fish with confidence. Its unique action and realistic holographic design have proven irresistible to large musky, northern pike, lake trout and many other freshwater and saltwater fish species around the world. Equally effective trolled or cast.

HRT Perch

An excellent imitation of the fish most frequently eaten by pike, musky, and many other predatory game fish. This lure features a unique action with a high amplitude of wobble even at slow retrieve speed.
