

Millenium Pro

You need no longer compromise: with Millenium Pro you can angle for the fish of your choice with exactly the right line! Color, suppleness and stretching properties have been adapted to match exactly the habitat and biting actions of the respective target fish, in high-tech quality.

Millenium Pro Trout

Fantastic trout line. Abrasion resistant, UV radiation resistant, excellent linear strength. Transparent with light fluorescent component is invisible even in crystal clear water of trout rivers and streams while an angler can control and observe above-water section with ease. Colorless, with delicate florescent flash of violet.

Millenium Pro Trout

Item No.	Model	Line diameter Ø		Breaking strength		Length	
		in	mm	lb	kg	yd	m

31-19-025	Millenium Pro Trout	0.010	0.25	10.00	4.50	164	150

Galaxy

All-round mono line made of highest grade polyamide with built-in UV protection. Double Teflon coating creates an extra protection against any impacts as well as reduces friction effects providing easy and long casts. Colorless, with fluorescent violet flashes. Excellent visible in bad light conditions, while almost invisible under water.

- High linear strength.
- high knot strength.
- Abrasion resistance.
