

## Siglon Strong

The name Siglon has stood for first class monofilament lines for generations. It was always our main concern to keep improving the lines, by making use of new technologies and materials in order to meet the more complex requirements of anglers. We can claim with pride that the new Strong is the best Siglon that ever existed. It is the ideal all-round line for demanding fishermen.

### Siglon Strong (164yd/150m)

Item No.	Model	Line diameter Ø in / mm		Breaking strength lb / kg		Length yd / m	
30-31-016	Siglon Strong	0.006	0.16	4.00	1.80	164	150
30-31-018	Siglon Strong	0.007	0.18	5.00	2.30	164	150
30-31-020	Siglon Strong	0.008	0.20	6.00	2.70	164	150
30-31-022	Siglon Strong	0.009	0.22	8.00	3.60	164	150
30-31-025	Siglon Strong	0.010	0.25	10.00	4.50	164	150
30-31-028	Siglon Strong	0.011	0.28	12.00	5.50	164	150

## Siglon Soft

With the new Siglon we have developed a line that is extremely supple, yet possess high pound test strength. This so-called Low-Memory-System facilitates an extremely natural bait presentation and prevents the line from curling or jumping off the reel. Even larger diameters of Siglon Soft run smoothly from the reel, even at very low temperatures. The ideal line for everyone who appreciates the advantages of a soft, supple line.

### Siglon Soft (110yd/100m)

Item No.	Model	Line diameter Ø in / mm		Tensile / Knot strength lb / kg		Length yd / m	
30-30-016	Siglon Soft	0.006	0.16	4.00	1.80	110	100
30-30-018	Siglon Soft	0.007	0.18	5.00	2.30	110	100
30-30-020	Siglon Soft	0.008	0.20	6.00	2.70	110	100
30-30-022	Siglon Soft	0.009	0.22	8.00	3.60	110	100
30-30-025	Siglon Soft	0.010	0.25	10.00	4.50	110	100
