

Diabolo II Series by BALZER

As with the put-in rods, all telescopic rods are perfectly tuned to their respective areas of application in terms of their action and equipment. With the powerful IM-6 carbon fiber combined with Kev-Power-Winding technology the dynamism and action of the telescopic rods are hard to distinguish from put-in rods. Most of the rods have extra-short transport lengths, making them ideal traveling companions.

Titanium SIC guides

12 x Kev-Power-Winding technology

Equipment:

- IM-6 carbon fiber
- 12x Kev-Power-Winding technology
- Extra short transport length
- Titanium SIC guides
- Aluminum butt cap
- Cork handles

Diabolo II Mini Spin 45

Small, but convenient! These telescopic rods are ideal for packing in small baggage because of their extremely short transport length. All rods are equipped with sensitive solid carbon tips with which catching trout and perch can be great fun. The strong backbone nevertheless deals with pike and walleye with ease. In short, a great all-rounder and reliable travel companion.

Item No.	Model	Length ft / m		Pieces	Transp. Length ft / m		Weight oz / g		Lure Weight oz / g		Handle
